

SKG Thessaloniki Cargo is a Freight Forwarding and Logistics company, which combines its dynamic entry in the field of domestic and international transport with the lengthy experience of its personnel. We specialize in all aspects of commercial shipment within the ever changing context of global economic interdependency.

Our basic principles:

Customer needs in focus: Client satisfaction is what drives and inspires us in our constant effort to turn needs into solutions and desire into reality.

- Speed, Flexibility and Adaptability achieved by means of:
 - o Our extended partners' network which enables us to promptly respond to any demands and requests at any stage of your products' transport.
 - o Our constant research for alternatives uniquely adopted to your particular needs. We specialize in all aspects of air, sea and road transport..
 - o Our constant concern to keep up with the latest evolution and change in the fields of domestic & international transport.
- Coverage for every need of carriage and storage,
 - o in width: whether it is a commercial or a personal effects shipment we can equally help
 - o in depth: from your doorstep to wherever you desire, we fulfill all intermediate procedures (mission tracking, customs brokerage for import/ export etc.)

All services are provided in the most competitive prices and in the spirit of Directness, Reliability and Consequence which are the key factors to our way of thinking.

Being a customer of Skg Cargo Thessaloniki enables you to receive high quality services as we offer integrated and complete range of transport solutions and alternatives. The effective transfer of your shipments along with the reduction of delivery time are key components to services provided.

1.1. Air Freight

Thanks to the lengthy experience of Its personnel and the solid network of trading partners, SKG Thessaloniki Cargo Services are able to address any request as well as provide all possible solutions regarding air transport. We serve a wide range of specialized transport, involving:

- Urgent ships and aircraft spare parts (AOG),
- Perishable items (fruits and vegetables, meat etc.)
- IATA Dangerous Goods.
- All aspects of electronic equipment and raw material,
- Live Animals (AVI),
- Personal Effects

Above list is by no means exhaustive. Contact us no matter how specialized your transports needs are.

1.2. Sea Freight

We cater for all kinds of sea import/ transport to any place in the world. Shipments include the following:

- Packed and Bulk shipments
- Heavy and Dangerous loads,
- Perishable products in Reefer/ Controlled Temperature Containers.

Thanks to our extensive network of partners we can meet your needs in each and every stage of transport procedures:

- We specialize in customs brokerage for both import and export.
- A full container type and loading list is available at request (FCL/ LCL/ High Cube/ Open Top/ Flat Rack),
- Controlling and Inventory Services,
- Packing and Warehousing services,
- Track and Trace capability

1.3. Road Freight

Effective transport and handling of your merchandise is a crucial factor to success. At SKG Thessaloniki Cargo Services we cover your needs by providing you:

- Customs brokerage services for both import and export,
- Partial (LTL) or Full Truck Loading,
- Packed and Bulk shipments,
- Refrigerated and Controlled Temperature options
- Controlling and Inventory Services,
- Packing and Warehousing services.
- Track and Trace capability

1.4. Combined/ Intermodal Transport

At SKG Thessaloniki Cargo Services we associate the constant research for the best and most competitive rates along with combined/ multimodal transport options. Combined air/ sea/ road transport options not only tend to beat down on costs. but are also environmentally friendly.

1.5. Customs Brokerage Services

With an experience spanning more than 25 years of successful activity, SKG Thessaloniki Cargo Services covers the whole range of your customs brokerage needs.

Our "aggressive" policy with regard to customs transactions is a basic principle that has been producing the best possible results over the years.

Our deep understanding and extensive know-how of all procedures to be followed for the maximum benefit to your business ensure total coverage of any possible issues concerning your business's Import & Export activity.

We handle in the most efficient way shipments requiring composite planning such as Exhibits for the Thessaloniki International Trade Fairs (Agrotika, Infacoma, Thessaloniki International Fair by Helexpo), Athens Branch Exhibitions, museums that are found in Thessaloniki (State Museum of Contemporary Art, Museum of Byzantine Culture e.t.c.) and also imports of personal effects and household goods.

We take advantage of the full potential provided by modern means of communication and we keep up with the latest information concerning customs law and procedures, seeking to provide maximum benefit to our customers.

The strong will to provide the best possible service relies on a constantly updated and firm basis of material support in terms of technological equipment. Both factors allow us to maintain and promote a pioneering spirit in all aspects of customs procedures evolution. We immediately adopt to any changes within our area of expertise.

For example we repose in certain areas of activity in this field:

- We fully assume and organize your forthcoming transactions with Greek Customs in all points of entry.
- Import and export customs clearance of your goods.
- Customs documentation preparation for Import or export of your products.
- Personal Effects and household goods imports.
- Storage in Customs Warehouse of your imported products.
- Customs clearance of cars and trucks.
- Customs clearance of small courier consignments of Athens and Thessaloniki airports.
- Tips for tariff classification based on the content or use of your goods.
- Payment of customs charges through a bank account.
- Transit of consignments subject to customs charges (Transit shipments or triangular transactions).
